

On Demand Audio and Web Conferencing

Collaborate anywhere, anytime at your convenience

With ACT's ReadyConnect[®] on demand audio and web conferencing, you can simplify local and global meeting logistics with a single conference provider. ReadyConnect self-service meetings don't require reservations or operator involvement. An easy-to-use interface enables you to set up and run your meetings with little or no training.

If you need assistance, however, our customer support team is available online or by e-mail or telephone 24x7. Whether you use audio or audio and web together, you're in charge!

Connect with confidence

ACT is the only conferencing provider that offers a true global audio network through our Global Bridge Linking platform. Our industry-leading service model delivers a localized experience, simplifies administration and helps to ensure a high quality collaborative experience in 65 countries.

You save money by using local telephone numbers, and you have access to in-country language support.

Web Meeting, ReadyConnect's web conferencing component, requires no downloads for hosts or attendees to join a meeting and present content.* It supports multiple operating systems and browsers—and is firewall friendly. What's more, web conferencing is available anywhere, adds a visual component to your meeting and offers many capabilities through a variety of standard and add-on features.

Conferencing makes sense!

- > Save the cost and hassle of travel
- > Enable collaboration locally and globally
- > Reduce your carbon footprint
- > Focus on your message not the logistics
- > Maintain a healthier work-life balance
- > Bring people together quickly and easily

Increase productivity and lower cost

With ReadyConnect®, you can increase productivity by enabling synchronous and asynchronous working environments. Web Meeting adds impact to traditional conference calls, especially when you engage participants with features such as polling and application sharing. Integrated audio and web can help you differentiate yourself and your business, while you eliminate travel costs and reduce your carbon footprint.
